

B&T semi-automatic carbine APC9 SD PRO G, Cal. 9x19mm

B&T semi-automatic carbine APC9 SD PRO G, Cal. 9x19mm

The APC9 SD PRO G is the next evolution of the already existing APC Family. With the ambidextrous non-reciprocating charging handle and its other advanced features, the APC SD PRO G is the perfect choice for Police Duty and therefore also an attractive weapon for sport shooting.

Due to the integrated suppressor the weapon is very quiet. Thanks to special ports in front of the chamber, also supersonic ammunition can be used. These cartridges will be reduced to subsonic speed by the ports.

The "G" is "feed" with all double column 9 mm Glock magazines. No matter if it is a 10 round magazine of the Glock 26, a standard Glock 17 oder 19 magazine or the long 33 round magazine, the APC9 SD PRO G takes them all. For all those who carry a 9 mm Glock as their duty weapon, the APC9 SD PRO G offers a wide range of new tactical possibilities.
