

**.338 Lapua Magnum (8,6 x 70 mm)**

**AP485 16,1 g / 248 gr AP**

CARTRIDGE	DESCRIPTION	WEIGHT
<b>BULLET</b>	Product code: 4318035 AP485 Armour Piercing Full metal jacket, hard metal core	44.3 g / 684 gr (approx.) 16.1 g / 248 gr
Jacket: Copper Core: Tungsten carbide		
<b>CARTRIDGE CASE</b>		21.1 g / 326 gr (average)
Brass (CuZn28)		
<b>POWDER</b>	Single or double base powder	5.9 g / 91 gr (approx.)
<b>PRIMER</b>	Boxer type; Non mercuric, non erosive, non corrosive	

**TECHNICAL DATA**

Identification	Black-coloured bullet tip
Muzzle velocity	905 m/s
Muzzle energy	6590 J
Average pressure	< 420 MPa
Maximum single pressure	< 483 MPa
Accuracy at 300 m (5 rds)	Piezo, according to C.I.P. < 120 mm average
Extraction force	Shot with Lapua test rifle > 300 N
Armour Piercing	> 12 mm at 550 m Armour steel plate HB400
Water tightness	The cartridge is hermetic according to NATO requirements

**PACKING**

<b>4318035</b>	10 rds in a carton box 200 rds in a steel case M2A1, gross weight 12.1 kg
----------------	--
