

AR-556®

MODEL NUMBER: **8500** | CALIBER: **5.56 NATO**

Stock	Black Synthetic, Collapsible	Handguard	Glass-Filled Nylon	Overall Length	32.25" - 35.50"
Front Sight	Adjustable Post	Twist	1:8" RH	Length of Pull	10.25" - 13.50"
Rear Sight	Adjustable Ruger® Rapid Deploy	Capacity	30	Grooves	5
Barrel Length	16.10"	Receiver Finish	Type III Hard-Coat Anodized	UPC	7-36676-08500-2
Thread Pattern	1/2"-28	Height	8"	Suggested Retail	\$799.00
Feature	Standard	Weight	6.5 lb.		

- Ruger® Rapid Deploy folding rear sight provides windage adjustability and pairs with the A2-style, F-height, elevation-adjustable front sight for a solid, reliable aiming system.
- Made from 7075-T6 hard-coat anodized aluminum forgings, shot-peened and proof-tested 9310 steel bolt, and 8620 steel bolt carrier. The inside diameter of the carrier and gas key are chrome plated and the key is staked for longevity.
- Barrel nut and delta ring allow easy, one-person service of the heat-resistant glass-filled nylon handguard. The design accepts most standard carbine-length handguards. The barrel nut uses a standard wrench.
- Gas block is located at a carbine-length (M4) position for improved balance and handling. Multiple attachment points include a QD socket and bayonet lug, for many sling and accessory mounting options. Serrations on the angled face of the gas block provide a low-glare surface.
- Handguards are made from heat-resistant glass-filled nylon for shooting comfort and durability.
- Single-stage trigger provides durable and reliable fire control. The enlarged trigger guard is designed to allow gloved shooting in cold weather.
- Six-position, telescoping, M4-style buttstock and Mil-Spec buffer tube allow the rifle to be properly sized for different shooters or varying levels of outerwear.
- Equipped with a medium contour, cold hammer-forged alloy barrel with 1:8" twist rifling that provides exceptional accuracy with bullets from 35 to 77 grains. M4 feed ramps and 5.56 NATO chamber allows the use of both 5.56 NATO and .223 Rem. ammunition. The barrel and 1/2"-28 Ruger® flash suppressor have a matte black oxide finish to reduce glare and provide corrosion resistance.
- Front sight post is elevation adjustable, and a front sight tool is included. The A2-style, F-height front sight allows co-witness with many optics.
- Ergonomic pistol grip features an extended trigger reach for more precise trigger control.
- Made from aerospace-grade 7075-T6 aluminum forging, the flat top upper receiver features a forward assist, dust cover and brass deflector.
